

A Simple Solution to a Serious Problem

Catch food tampering in an instant with PWP's Tamper-Evident® packaging.

The problem? Food safety. The solution? PWP's Tamper-Evident packaging.

No other product on the market makes tampering so difficult to accomplish, and so easy to notice. Unlike containers that can be pried open with a fingernail, our patent pending Tamper-Evident packaging has a strong, tear-open tab that tells you instantly when tampering has occurred. You have enough to worry about. Delegate this one to us.

The benefits of our Tamper-Evident packaging don't stop there. For more information and a free sample, call 877-700-0330.
